PRE-PAINTED ANTIFOULING

NEW

It is now possible to purchase certain Alamarin-Jet models with PRE-PAINTED ANTI-FOULING treatment.

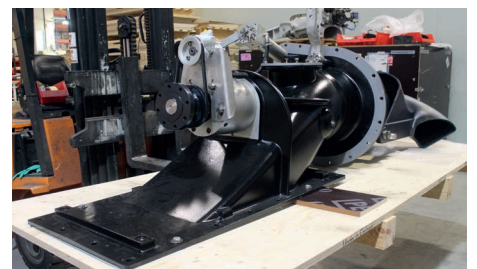

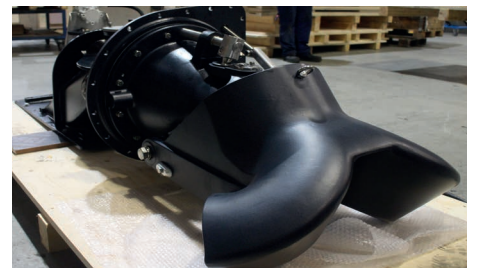

Available for models: AJ 245 AJ 285 AJ 288 AJ 340

We use TRILUX HARD ANTIFOULING by INTERNATIONAL. Trilux offers protection in low to medium fouling conditions where a hard, scrubbable antifouling is required.

- * Medium strength, hard antifouling
- * Hard, scrubbable surface
- * Suitable for burnishing to provide a smoother finish
- * Aluminium compatible formulation

Due to this additional process the leadtime for new jets with pre-painted antifouling is increased by approximately 2-3 weeks.

Please contact your local Alamarin-Jet representative for pricing.
